

Med Transport Center versus other Non-Emergency Long- Distance Transport Vehicles

MED 
Transport Center

Med Transport Center

At **Med Transport Center** we provide **MedCoach** or **Air Ambulance** options for your loved one's non-emergency medical long distance transport needs by exceeding expectations for the last 30 years in comfort, care, service and reputation.

Comparison to Competitors

Our Med Coaches are more comfortable for long distance medical transport, unlike stretcher vans, minivans or ambulances, which are built for short distances.

MED Coaches are simply better in comfort, quality and provide more amenities than any other medical transport option available. We show how Med Transport Center exceeds competing non-emergency medical long-distance transport services.

Med Transport Center provides Quality Customer Service & Comfort

QUALITY CUSTOMER SERVICE

Experienced, professional team members have assisted in thousands of transports. A live reservationist will discuss needs and customize your transport experience with Ground or Air options.

Our experienced coordinators will work with the facility staff to receive medical information and communicate patient needs during the medical transport. Our coordinators handle all the details and you will receive a detailed itinerary prior to medical transport. We will handle all of the planning for you, so you can focus on what's important.

COMFORT

Med Transport Center provides the largest, most comfortable accommodations.

- Hospital-grade Bed - 36" wide hospital bed with remote controls to recline for mobility and an 8-inch thick memory foam airflow mattress to help prevent skin issues.
- Second bed for family member or friend to accompany transport.
- Reclining leather chair with footrest.
- Large bay window for scenic viewing throughout transport.
- Large spacious interior to move and fully stand to stretch.

Med Transport Center provides Hygienic, Reliable, Cost-Efficient & Family-Friendly Service

HYGIENIC

Med Transport Center has strict standards for hygienic and non-emergency medical need. Two sinks are offered to maintaining cleanliness, hand washing best practices, separate kitchen and private bathroom. Medical equipment is sterilized/steril and maintained prior to every transport.

- Bathroom - On-board private bathroom is private, more comfortable and accessible than getting out of an ambulance or van to use a public restroom and more private than using a bedside commode.
- Kitchen and Food - A separate station is used from bathroom with sink to maintain sanitation. Food is provided by dietary needs.

RELIABLE

We provide a fleet of vehicles stationed across the entire continental United States to accommodate quick and reliable transports.

COST-EFFICIENT

Since we station our vehicles across the US, this affords us the ability to keep costs down for added travel expenses. We also provide monthly promotions.

Family-oriented and faith-based company with a 5 star patient support team.

- A family member, friend, or pet can ride during the transport.

FAMILY-FRIENDLY

Med Transport Center provides Safety, Customized Care & First-Class Amenities

SAFETY

Verified safety records and commercial driving licenses. Our Med Coaches use a Mercedes Chassis and engine that are serviced with routine maintenance and safety inspections for each transport.

- Each transport provides 2 professional drivers that are background checked, clean driving records and have commercial driver licenses.
- Two professional drivers are used to drive through safely and efficiently to the patient's destination.
- Quality bedside care is provided by a licensed nurse on each transport.

CUSTOMIZED CARE

Our beautiful MED Coaches are customized specifically for anyone needing a long distance medical transport of 300 to 3000 miles with many amenities not offered by other companies.

- We provide non-emergency medical equipment and supplies including a nebulizer, suction, oxygen concentrator and reserve tanks.
- We only provide single private transports and accommodates additional family members or pets to travel bedside.

FIRST CLASS AMENITIES

Luxury entertainment system is provided with an on-board large flat screen TV's, free WiFi to stay connected, and a custom tablet filled with games and movies to enjoy during the journey.

- On-board Meals and Prep - A microwave and refrigerator are available for hot and cold drinks, fresh foods, and snacks.
- Leather recliner with footrest to accommodate a patient or family member.

Comparison to Other Transport Companies Transporter Vans

COMPETITOR'S VERSION OF COMFORT

Larger than a minivan transport vehicle by supplying slightly more height. One can stand but not comfortably in cramped interior. Accommodates 1-3 additional patients during transport.

- 8-inch memory foam mattresses not airflow mattress and potentially unable to sit comfortably during transport.
- Uncomfortable ride on a stretcher or "Passenger bed"
- Looking out the back of an ambulance or van lying on a narrow stretcher. Most stretcher vans do not have room for a comfortable leather recliner seat with a footrest and a second bed that are in each MED Coach.

UNHYGIENIC

- No airflow mattress to prevent skin irritation.
- No food preparation station or sanitary handwashing station to reduce spread of germs.
- Bathroom - Competitors provide a bedside commode or bedpan. This provides direct access to use the bathroom next to the bed. A bedside portable toilet can provide unparalleled access to unhygienic practices to contaminate bed, food and nearby medical supplies.

UNDETERMINED RELIABILITY

- Some competitors are locally-based serving only certain locations. Some competitors are nationally-based. Some provide both services.

Comparison to Other Transport Companies

Transporter Vans

COST - YOU GET WHAT YOU PAY FOR

Dependant on type of transport and mileage.
Lower cost usually means lower quality service.
Basically - You get what you pay for.

LIMITED CUSTOMIZED CARE

- Medical Tech or specialist, sometimes a licensed nurse if available at all.
- Cramped room for proper care and patient mobility.
- Uses 1-2 drivers depending on length of transport.

QUESTIONABLE SAFETY

- Questionable safety record and maintenance record.

LIMITED AMENITIES

- Some provide magazines, books, and tablets with movies with WiFi.

FAMILY

- Some competitors provide additional beds for additional family members to ride during transport.

Comparison to Other Transport Companies

Mini Transport Vans

COMPETITOR'S VERSION OF COMFORT

Minivans are tight, cramped, limited head room, and no room to stand and move.

- Limited headroom to stand up to care for patient.
Limited to no room for family members to accompany patient on transport.
- Bed-2-inch plastic mattress

UNHYGIENIC

- Bathroom - Patient only has use of a bedpan during travel or stopping at gas stations, which are normally filled with extra bacteria.
- Hand sanitizer or bathroom breaks to clean up during travel.

UNDETERMINED RELIABILITY

- Some competitors are locally-based serving only certain locations. Some competitors may be nationally-based.

LIMITED CUSTOMIZED CARE

- No licensed nurse, medic or med tech.
Potentially could add medic if needed.

FAMILY

- Potentially 1 family member could travel but may not allow any additional travelers.

Comparison to Other Transport Companies

Mini Transporter Vans

COST - YOU GET WHAT YOU PAY FOR

- Cheaper alternative to transport van and MedCoach; however, you really get what you paid for with cramped space between seats.

LIMITED AMENITIES

- Limited care with stops for bathroom breaks and food.
- Not ideal for long-distance travel in cramped space.
- Some provide the radio, magazines, books, and tablets with movies.

QUESTIONABLE SAFETY

- Unverified maintenance record with questionable safety record.
- Drivers - 1-2 professional drivers only.
